Over the last two decades, Malta has established itself as an innovative and reliable financial services centre, hosting a variety of financial services businesses and structures including fund managers, fund administrators, forex brokers, payment services providers, investment advisors and insurance principals. The Malta Financial Services Authority (MFSA), is responsible for the licensing, regulation and supervision of investment services providers operating in and from Malta and is the Island’s single regulator for financial services. Malta’s appeal is also enhanced by its highly skilled workforce, multilingualism, extensive tax treaty network, and reliable IT infrastructure.

The principal legislation governing Investment Services’ in Malta is the Investment Services Act, 1994 (“ISA”) as subsequently amended. The ISA establishes the regulatory framework for investment services providers including portfolio managers, investment advisors, and forex brokers.
